

Surpass TKM-BPF /Model TKM-BQ4F

Liquid drop Prevention Connector for compact bottle (15L,18L)

DESCRIPTION

This connector has been developed for pressurized transport containers, combining safety, airtightness, and ease of operation for semiconductor high-purity chemicals, medical chemicals, and industrial cleaning fluids.

FEATURES

- Prevents liquid leakage during plug and socket detachment (residual liquid: ≤ 0.05 cc).
- Super one-touch connection for easy installation.
- Available with PTFE or PFA plugs to suit different chemical solutions.
- Connection-error prevention type available.

MODELS

	Plug (with cap)	Socket (optional cap available)
Liquid side	TKM-□-PO-PL O-ring material P: Perfluor Body material BQ4F: PTFE BPF: PFA	TKM-BPF-SO-P O-ring material P: Perfluor *Body material is PFA
Gas side	□-PI-P O-ring material P: Perfluor Body material BQ4F: PTFE BPF: PFA	S-BPF-SI-FL Valve: O-ring less Seal of plug: FEP Jacket O-ring *Body material is PFA
